Q1 · GENERAL QUESTION

Travel

여행 선호: 동행자, 장소, 활동, 이유

Tell me about the kind of trips you usually enjoy. Where do you like to go, who do you travel with, and what do you like to do on a trip?

IL

I like family trips. I usually travel with my wife and daughter. I like visiting new places, eating local food, and taking pictures.

IM

I usually take one or two family trips a year with my wife and daughter. We like places where we can walk around, try local food, and see something different from our daily routine. I prefer a relaxed schedule because I do not want the trip to feel rushed.

IH

I enjoy family trips the most because they give us time to get away from our normal routine. I usually travel with my wife and daughter, and we prefer places with good food, interesting sights, and areas where we can walk around comfortably. I like to plan one or two main activities each day and leave some free time. That balance makes the trip more relaxing and enjoyable for everyone.

AL

The trips I enjoy most are family trips that combine sightseeing with enough free time to slow down. I usually travel with my wife and daughter, and rather than trying to visit every famous place, we choose a few things we genuinely want to experience. We might explore a local market, try regional food, take a long walk, and spend time taking pictures together. I have learned that a flexible schedule works better for us because unexpected discoveries often become the most memorable part of a trip.

CHECK · get away from our normal routine / leave some free time / a flexible schedule

Q2 · GENERAL QUESTION

Travel

여행 준비: 날씨, 일정, 짐 목록, 여유

How do you usually prepare for a trip? What do you check or organize before you leave?

IL

I check the weather and make a simple plan. I make a packing list. I also check the places I want to visit.

IM

Before a trip, I usually check the weather and make a simple itinerary. Then I make a packing list and save the places I want to visit on my phone. I try to finish the important preparation a few days before we leave.

IH

I usually start preparing several days before a trip. First, I check the weather so I can decide what clothes to pack. Then I make a simple itinerary with a few important places and restaurants we want to try. I also make a checklist on my phone for chargers, medicine, and other small items. Preparing early helps me avoid last-minute stress.

AL

My trip preparation is fairly simple, but I try to do it early. A few days before leaving, I check the weather, organize a short itinerary, and save the places we are interested in on my phone. I also make a packing checklist, especially for easy-to-forget items such as chargers, medicine, and documents. I do not plan every hour because that can make a family trip feel too rigid. Instead, I prepare the essentials and leave enough room to change our plans if we find something more interesting.

CHECK · make a packing list / avoid last-minute stress / prepare the essentials

Q3 · GENERAL QUESTION

Travel

여행 경험: 장소, 활동, 기억에 남는 순간, 느낌

Tell me about a memorable trip you took. Where did you go, what happened, and why do you still remember it?

IL

I went to Jeju Island with my family. We walked near the coast and ate local food. The weather was beautiful. I really enjoyed the trip.

IM

A while ago, I went to Jeju Island with my wife and daughter. We walked along the coast, visited a local market, and tried several kinds of local food. The weather was clear, so we spent a lot of time outside. It was a simple trip, but we had a great time together.

IH

One of my most memorable trips was a family trip to Jeju Island. We did not make an extremely busy schedule, so we had time to walk along the coast, visit a local market, and stop whenever we found an interesting place. One afternoon, the weather was especially clear and the ocean view was beautiful. We took many family pictures and had a long dinner together. I remember the trip because everyone felt relaxed and happy.

AL

One trip that still stands out was a family vacation to Jeju Island. Instead of filling every day with scheduled activities, we kept the plan fairly open and explored at our own pace. We walked along the coast, wandered through a local market, and tried food that we had never ordered before. The best moment came on a clear afternoon when we stopped near the ocean and simply stayed there taking pictures and talking. Nothing dramatic happened, but that relaxed time together is exactly why the trip remains so memorable to me.

CHECK · stands out / at our own pace / remains memorable

You are planning a weekend family trip. Call a travel agency, ask three or four questions about a travel package, and confirm the option you want.

IL

Hello. I am planning a weekend family trip. Do you have a package for Jeju? What activities are included? How much is it for three people? Is it available next weekend? Thank you.

IM

Hello, I am planning a weekend trip with my family and I am interested in your Jeju package. Could you tell me what activities are included? How much is the package for three people? Is it available next weekend? Also, what should we prepare before the trip?

IH

Hello, I am calling because I am planning a weekend family trip and I saw your Jeju travel package. Could you tell me what the main activities are? How much would the package cost for two adults and one child? Is there availability next weekend? Also, do we need to reserve any activities separately? If the Saturday package is available, I would like to choose that option.

AL

Hello, I am planning a short family trip for next weekend, and I would like some information about your Jeju package. First, what activities are included in the basic itinerary? Second, what would the total price be for two adults and one child? Is the Saturday departure still available, and are there any optional activities that need to be reserved in advance? Finally, if our plans change, what is the cancellation or change policy? Great, the Saturday option sounds best for us. I would like to go ahead with that package. Thank you.

CHECK · state the trip plan / ask at least three specific questions / ask about price and availability / confirm the chosen option
