Q1 - General / Routine

Tell me about the kinds of movies you usually watch. When and where do you watch them, and what do you like about them?

전략

첫 번째 질문은 평소 영화 감상 루틴입니다. 장르, 시간, 장소, 좋아하는 이유를 연결하세요.

IL

I usually watch movies at home. I like action and comedy movies. I watch them on weekends because they help me relax.

IM

I usually watch movies at home on weekends. I enjoy action movies and comedies because they are entertaining. I normally watch them on TV after dinner when I have free time.

IH

I watch movies fairly often, mostly at home on weekends. I tend to choose action movies or comedies depending on my mood. After dinner, I usually sit in the living room and stream a movie on TV. I like watching movies because it is an easy way to relax after a busy week.

AL

I watch movies fairly regularly, although I usually save them for weekends when I have enough time to enjoy them without interruptions. I tend to choose action films when I want something exciting and comedies when I simply want to unwind. Most of the time I stream them on the living-room TV after dinner. What I enjoy most is that a good movie gives me a complete break from work and lets me focus on a different story for a couple of hours.

Key Expressions

depending on my mood · unwind after a busy week · without interruptions

Q2 - Past Experience

Tell me about a memorable movie experience you had. What movie did you watch, who were you with, and why do you remember it?

전략

두 번째 질문은 기억에 남는 영화 경험입니다. 누구와 어디서 봤는지, 무슨 일이 있었는지, 왜 기억에 남는지를 시간 순서로 말하세요.

IL

I watched a movie with my family. We went to a theater. The movie was exciting, and we ate popcorn. I had a good time.

IM

One weekend, I went to a movie theater with my family. We watched an exciting movie and shared popcorn. The theater was crowded, but we had good seats. I remember it because we had a fun time together.

IH

One memorable movie experience was a family trip to a theater on a weekend. We had booked our seats in advance, so even though the theater was crowded, we had a good view. We bought popcorn and drinks and watched an exciting movie together. Afterward, we talked about our favorite scenes over dinner, which made the whole evening feel special.

AL

A movie experience I remember clearly was a weekend outing with my family. We had reserved seats in advance because the film was popular, and that turned out to be a good decision because the theater was packed. We bought popcorn and drinks, settled into our seats, and really enjoyed the movie. What made the experience memorable was not only the film itself but what happened afterward. We went out for dinner and spent a long time comparing our favorite scenes and characters, so the movie became part of a really enjoyable family evening.

Key Expressions

book seats in advance · the theater was packed · compare our favorite scenes

Q3 - Change / Comparison

How has watching movies changed compared with the past?

전략

세 번째 질문은 영화 감상 방식의 과거와 현재를 비교합니다. 극장과 대여 중심이던 과거, 스트리밍 중심인 현재, 변화의 결과를 연결하세요.

IL

In the past, I went to theaters more often. Now I watch many movies at home. Streaming services make it easy.

IM

In the past, I often went to a movie theater or rented movies. These days, I use streaming services at home. I can choose a movie anytime, so watching movies is more convenient now.

IH

The way I watch movies has changed quite a bit. In the past, I depended more on theaters, TV schedules, or rental services. These days, streaming platforms let me choose from many movies whenever I have time. I still enjoy theaters for big releases, but for everyday viewing, watching at home is much more convenient.

AL

Movie watching has changed significantly because streaming services have made content available almost instantly. Years ago, I had to check theater times, wait for a movie to appear on television, or rent a disc. Now I can browse a huge selection at home and start watching whenever it fits my schedule. I still prefer a theater for a visually impressive new release because the large screen and sound system are hard to replace. For ordinary movies, however, streaming is so convenient that it has completely changed my viewing habits.

Key Expressions

compared with the past · available almost instantly · fit my schedule

IL

Hi. The movie is sold out. Can we watch the next show? Is eight o'clock okay? We can also watch another movie. Please call me.

IM

Hi, the seven o'clock movie is sold out. Can we watch the next showing at eight thirty? Is that too late for you? If so, do you want to choose another movie? We could also go tomorrow.

IH

Hi, I just checked the tickets for the movie we wanted to see, but unfortunately the seven o'clock showing is sold out. Would you be okay with the next showing at eight thirty? Is that too late for you? If it is, would you rather choose a different movie tonight, or are you free tomorrow evening? Let me know which option works best.

AL

Hi, I just checked the theater app, and unfortunately the seven o'clock showing we planned to see is completely sold out. Would you mind going to the eight - thirty showing instead? Is that going to be too late for you on a weekday? If it is, would you rather pick a different movie that starts around seven, or should we move our plan to tomorrow evening? I can check seats for both options right now. Great, then let's go with the eight - thirty showing tonight. I'll book the seats and text you the confirmation.
